

THE CHEDI

AL BAIT, SHARJAH, UAE

GHM

A STYLE TO REMEMBER

The Chedi Al Bait in Sharjah is a unique development that brings the history of the United Arab Emirates to life. Spread over 10,000 square metres, this 53-room resort is part of an Emirati conservation project: its rooms, restaurants, spa and wellness facilities are incorporated into heritage buildings that are almost a century old. UK architecture firm, GAJ, worked closely with GHM to weave the stories from yesteryear into this new luxury resort, adding charm to the quaint destination. Whether it's the conversion of an old home into a modern library and museum, or transforming Souq Al Arsah - a traditional open-air marketplace - into a pedestrian thoroughfare within the resort, the colourful heritage of Sharjah is beautifully preserved in the Emirate's most luxurious address.

Location

Sharjah is the only emirate that enjoys breathtaking coastal views – the Arabian Gulf on the west, and the Gulf of Oman in the east. It is also often referred to as the cultural seat of the UAE and in 1998 was named UNESCO’s Arab Capital of Culture.

The Chedi Al Bait’s location in Sharjah makes it accessible to the city of Dubai (a 20-minute car ride) and also GHM’s sister property – The Chedi Muscat in the Sultanate of Oman, which is an hour’s flight away.

Accommodation

The Chedi Al Bait not only stands as Sharjah’s first luxury resort, it is also a new benchmark for the hospitality scene. An intimate offering with 53 well-appointed guestrooms, comprising eight different categories of rooms and suites, reflecting the destination’s charm with its Arabic influences while GHM’s Asian roots are incorporated in the overall design.

Events and Business Facilities

Whether you are booking the entire resort for that once-in-a-lifetime celebration or planning to hold an exclusive corporate gathering in our private meeting room, The Chedi Al Bait is wholly dedicated to making your event a truly memorable success.

Dining

Essential to the dynamic cultural life of Sharjah is its cuisine. Share Emirati gourmet favourites served family-style at The Arabic Restaurant, and find international fare from morning to evening in The Restaurant. Both restaurants boast a choice of indoor and outdoor seating, giving diners the chance to appreciate the surroundings while enjoying their meal.

The Café offers pastry delights for those with a sweet tooth, served in an intimate setting where teas and coffees are not only part of the décor, but an aromatic journey for the senses.

The Ice Cream Shop is the perfect place to stop and appreciate the buzz around the nearby souqs while letting the taste and texture of homemade ice cream and sorbet engulf your palate.

The Spa at The Chedi Al Bait

This is the first spa within the GHM family to feature a hammam as part of its treatment facilities. Separate male and female spas cater to specific needs with a total of five treatment rooms while post-treatment, male guests can make use of the sauna and steam facilities and female guests can enjoy added pampering in the plunge pools and Jacuzzi. This luxury spa is a serene escape where one can relax, recharge and be rejuvenated.
