Design and Interiors

The design story

The resort embodies the spirit of Bahrain, taking design and architectural inspiration from the harmonious movements of the sea and the soothing ripples of its waters. Every room and suite offers sweeping views of the Gulf, the resort's verdant emerald gardens or the waterways of the canals.

Guests will be welcomed to the hotel lobby with blue hues and a prismatic mother of pearl lighting installation suspended from the ceiling. The sandy shades of the surrounding landscape are incorporated into floors, panels and furniture across the resort. Intricate stone carvings found in arched hallways, pavilions and doorways resemble the local architectural styles of Bahrain's streets and forts.

The resort's design also pays homage to the country's fishermen and their boats, which can easily be spotted sailing past the resort. The architecture celebrates the connections humans have historically held with nature in the region.
