Its series of villas with private plunge pools and residential suites run along the northern side of the hotel. This astonishing landmark of luxury in Kuwait's hospitality honors the essence of the destination. An epitome of elegance, Jumeirah Messilah Beach Hotel & Spa redefines luxury with every stay, by blending the charm of the past and the elements of today.

### STRUCTURE & DESIGN

Jumeirah Messilah Beach Hotel & Spa is inspired by its location. Messilah, derived from the word Massiyalah, denotes a low-lying area where waters merge and flow into the sea.

Thus, inherent to the hotel's identity, water can be found throughout the hotel's design. Water features flow from the central lobby and across the resort to connect with streams, channels, and fountains in the gardens.

Water is also reflected in a series of striking sculptures and in the interior design of the hotel. In addition, the hotel's Talise Spa,

Jumeirah's signature spa concept means 'beautiful waters' in a Native American language, to reflect the calming and soothing properties of water.

Another key design feature is the use of traditional Kuwaiti oriel windows of Mashrabiya design, which can be found around the hotel. Mashrabiya screens are also fitted in the bedrooms and can be pulled across the windows to provide privacy and shade from the sun.
