Teens are also well looked after with their own space to create, play and mingle. From video games to, foosball, board games and fun sports, there's plenty to keep them very happily occupied.

Eco-Conscious

Anchored on one of the most desirable beach locations in the UAE, the resort was also conceived with the environment in mind and is accredited with the respected pearl certification.

Saadiyat's design ensured a reduced impact on key island habitats, namely mangrove and wetland areas as well as the Saadiyat beach dune ecosystem, it's native flora and fauna, specifically the nesting of endangered hawksbill turtles.

The resort is proud to be single-use plastic free and is estimated to save up to half a million plastic water bottles per year that would have otherwise been consumed. The complimentary water placed in guest rooms is served in re-fillable glass bottles and replenished with water processed by the resorts own state of the art filtration plant. Upon check-in, every guest is also given a reusable sports bottle that they can refill at the three water stations spread across the resort. With this policy, that extends to all single-use plastic products including straws and bathroom amenities, the resort strives to be as kind as ever to its coastal environment.
