

## Technical Specifications Theatre by QE2, Dubai

The theatre is on board the historical Queen Elizabeth 2 Ship in Port Rashid, Dubai. The Ship operates as an Accor Hotel and has a number of venues and services available on board.

The Theatre is located on the Upper Deck of the Ship and has its own bar for shows (Crystal Bar). The Balcony also has the Captain's Board Room (16.5m x 4.2m) available as a VIP Bar

Capacity without Row A: Stalls = 365 Seats. Balcony = 136 Seats. Total = 501 Seats.  
For photos of the venue, please see appendix 1.

### Stage

Useable Stage Dimensions:	8m wide x 4.7m deep
Max Useable Height Above Stage:	3.75m
Stage Height from Auditorium:	1.1m

There is one dressing room either side of the stage with a single entrance on stage from either side as well as a crossover behind the screen. Further dressing room space available on request (charges may apply) House tabs are available, however operation of them is not practical during the show.  
For theatre layout plans please see Appendix 2.

### LED Screen

The Stage is set up with a permanent LED screen at the back of the stage, a pair of LED legs at the side and a LED Screen across the front of the stage.  
The LED screens are run from a pair of Mac's running Qlab which can also control the lighting desk through a show network.

The LED Dimensions are:

Back wall	6m x 3.5m @ 3.9mm	1536 x 896 pixels (We can scale from any 16-9 format)
Each side LED screen	1m x 3.5m @ 3.9mm	256 x 896 pixels per leg
Front Stage LED screen	6m x 1m @ 3.9mm	1536 x 256 pixels

The Screens are charged separately to the Technical Equipment.
